

PREM D

premraj19062004@gmail.com | +91-9385522996

Front-end Developer with hands-on experience in building responsive web applications using HTML, CSS, JavaScript, and React.js. Passionate about creating user-friendly interfaces and developing innovative solutions.

EDUCATION

- **Bachelor of Engineering (B.E.) – Computer Science and Engineering**
Jeppiaar Institute of Technology, Sriperumbudur, Chennai
Graduated: April 2025 | CGPA: 8.0
- **Higher Secondary Certificate (HSC)**
Seventh Day Adventist Higher Secondary School
May 2021 | Percentage: 84%
- **Secondary School Leaving Certificate (SSLC)**
Seventh Day Adventist Higher Secondary School
May 2019 | Percentage: 85%

SKILLS

- **Frontend:** HTML, CSS, JavaScript
- **Programming Languages:** Java
- **Tools & Platforms:** Visual Studio Code, GitHub

EXPERIENCE

RPA Developer Intern | Worldline | Chennai

September 2023 – November 2023

- Developed and enhanced skills in automating business workflows using UiPath, focusing on reducing manual tasks and increasing operational efficiency.
- Gained practical experience in designing, developing, and deploying RPA bots to streamline internal processes such as data extraction, report generation, and task scheduling.
- Learned to apply best practices in RPA development, including exception handling, modular workflows, and reusability of components.

PROJECTS

- **Decentralized Social Media Platform**
 - Explored the use of **blockchain technology** to create a trustless, censorship-resistant social media ecosystem.
 - Focused on ensuring user control over data, enhanced privacy, and secure content sharing.
 - Implemented features like identity validation, peer-to-peer content delivery, and token-based interactions.
- **Personal Assets and Finance Management System**
 - Designed and developed a system to **track income, expenses, investments, and assets** using automation for periodic data updates.

- Integrated data from multiple financial sources to provide **real-time insights and budgeting tools**.
 - Included features like **automated bill reminders, investment summaries, and monthly financial reports**.
 - **Frontend Development Projects**
 - Developed and maintained **responsive web interfaces** using HTML, CSS, JavaScript, and Bootstrap.
 - Focused on crafting **user-friendly and visually appealing UI/UX**.
 - Recreated the interfaces of **Instagram, YouTube, and Spotify** to strengthen frontend design and development proficiency.
-

COURSES COMPLETED

- Completed NPTEL Certification on “The Joy of Computing using Python” course with a consolidated score of 69% (Jan-Apr 2022)
 - Completed “RPA Developer Foundation” course from UiPath Academy, gaining foundational knowledge of Robotic Process Automation (RPA) and hands-on experience with UiPath Studio.
-

WORKSHOPS ATTENDED

- “Techo Workshop Series’22 Vol.5 on Data Science” organized by Techobytes Technologies at IIT Madras Research Park, Chennai.
 - “Web Designing” online workshop at Jeppiaar Institute of Technology.
 - Blockchain Workshop at SRM Easwari Engineering College.
-

OTHER CREDENTIALS

- Paper on “Kidney Stone Detection from a CT Scan Image using Deep Learning” in 12th International Conference on Contemporary Engineering & Technology 2024.
